BUSINESS CONCEPT

A one-stop-shop concept – from software development to direct sales, implementation and support – to ensure maximal customer proximity and flexibility.

As an experienced IT partner, we see our customers through the process of finding a suitable solution for their company and of exploiting the potential value available in the best possible way. We offer:

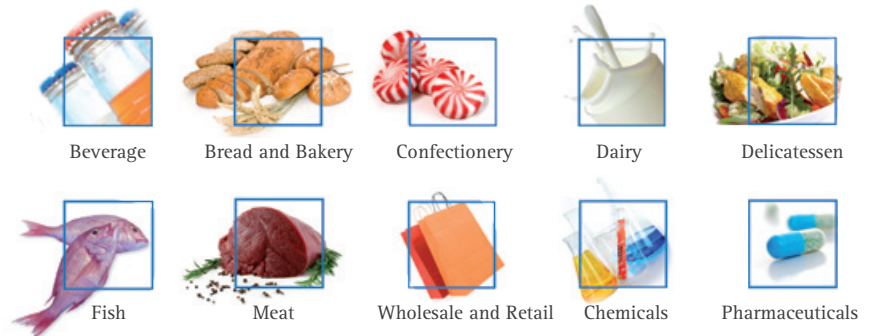

- Software solutions
- Business process consulting
- Special hardware components
- Training
- Support (24/7)

A single IT partner for all requirements – our customers profit from a turnkey IT solution for their entire company.

CUSTOMERS AND TARGET INDUSTRIES

90% of our customers are small to medium-sized companies. Due to our consistent specialization in the process industry and trade, we have detailed knowledge of your sector and your specific requirements. As a result, we can guarantee a maximum of industry-specific functionality.

Across the globe, successful companies in the following industries choose the CSB-System:

What Makes Us Stand Out

INDUSTRY EXPERTISE

CSB-System stands for industry expertise. Industry expertise which is based on extensive know-how gained during more than 34 years of experience in the process industry. Your benefit: optimally pre-defined and industry-specific process flows, integration of all industry-specific program requirements in the standard version and short implementation times for secure and fast ROI.

INTEGRATION

Integration is the guiding principle of both our solution philosophy and program development. We fully integrate all business areas and processes as well as the entire logistics and process periphery in a single corporate management system without any island solutions.

INDEPENDENCE

Since its foundation, CSB-System has always remained financially, technologically and strategically independent. Our independence serves to protect the future of our customers.

INTERNATIONALITY

As an international player, we think and act globally. A worldwide knowledge network as well as global presence and local expertise are among our strong points. The CSB-System is available in more than 20 languages. It supports many currencies and is being utilized successfully in over 40 countries.

Argentina - Roldán Santa Fe

What Our Customers Say About Us

„The biggest praise for a software system is, if you do not notice it. If it is just there, does its job and manages your company in the background. This is exactly what the CSB-System has been doing for more than 15 years.“

Karl Schmiedbauer,

Managing Director at Wiesbauer -
Österreichische Spezialitäten GmbH
